Since 1939, Brown and Holmes has maintained an enviable position in the marketplace by delivering superior quality workholding solutions.

We believe in working with our customers to deliver the best possible solution for their individual requirements.

We pride ourselves on offering a complete service - our skills include design, manufacture, assembly, testing and inspection, tooling support, installation and after sales support.

Whatever your requirements, whatever your industry, Brown and Holmes can deliver the right workholding solution for your needs.

Whether you are looking for an off-the-shelf product or a bespoke solution, Brown and Holmes can deliver on time and within budget.

We specialise in the supply of standard and semi-standard CNC Cubes and Tombstones, test rigs, jigs and fixtures, special machines and gauges. We also offer precision machining and complex assembly work.
